Hi Sarah. We have created a Syspro account for you. Do either you or Sebastian have time this afternoon to go through it quickly? Just want to make sure you can login and have access to what you need.

Thanks, Reece

Hi Reece,

A shared account will be fine :-)

Many thanks

Sarah

Hi Sarah/Sebastian, can I ask what you need in the way of Syspro accounts? I.e. Do you need an account each or would a single/shared account suffice.

Thanks, Reece

HI Ross,

We will need access to both.

Kind regards

Sarah

Ross Tomlinson RT

Hi Sarah

You're account is local admin on RIL-APP01 and RIL-DB01

Tested connection on my machine to VPN and can connect to both.

Reece is sorting out SysPro access.

Thanks

Ross

Ross Tomlinson RT
2/18/2026 2:50 PM-

Can you confirm if you need access to the SQL server or the APP sever or both?

Thanks

Ross

Ross Tomlinson RT

In terms of VPN and network account

Please download VPN client from here - only need to install Any Connect VPN.

cisco-secure-client-win-5.1.12.146-predeploy-k9.zip

Hostname is

rectella-internationa-wireless-w-tqngtmvdtj.dynamic-m.com

Hi Sarah

I don't believe we have access to setup SysPro users.

@reece is this something you can do?

Thanks

Ross

Hi Ross,

Thank you for picking up this ticket.

We still do not have access and could do with it as soon as possible as we are waiting to test the integration.

We will also need a user setting up in SYSPRO, is that something you can help with?

Kind regards

Sarah

Hi Sebastian

Sorry, Chris is not the office today - has anything at all been setup yet or do you need us to do everything?

When are you planning on getting access?

Thanks

Ross

Morning all,

Would it be possible to get this access arranged this week? We are ready to test against the test environment now.

Kind regards,
Sebastian

Hi Chris,

Apologies for the delay getting back to you.

For the Shopify-SYSPRO integration development, we'll need:

1. VPN access - to connect remotely
2. Admin access to the SYSPRO application server - for e.net / Business Objects
3. Admin access to SQL Server - for the SYSPRO database

As it's the test environment, admin keeps things simple for development and troubleshooting.

To answer your question about how Shopify will query SYSPRO: our integration service sits in between. Shopify sends webhooks to us, we post orders to SYSPRO via e.net Business Objects, and stock syncs back on a schedule.

Happy to jump on a call if easier to talk through.

Best regards,
Bast

Good afternoon Sarah,

Hope you are well, just a quick email to confirm if you received my previous

email regarding the integration of Syspro and Shopyfy?

I am available today until 4:30pm, I am out of the office tomorrow but I will be back in the office on Friday from 08:00am until 4:30pm.

Many thanks,

Chris Rawstron

Good morning Sarah,

Hope you are well, we have been asked to get in contact with yourself regarding server and VPN access for testing and development for the integration of Syspro and Shopyfy website.

Please could you confirm what access to the system you will require and we can look into this further for you? Another question we have is how with Shopify will query SysPro going forward?

If you have any issues with the above please do not hesitate to get in touch.

Many thanks,

Chris Rawstron

Good afternoon,

Please liaise with Sarah, cc'd on email to enable access to the relevant servers and network access to enable development work of integration of Syspro and Shopyfy website.

Best Regards,

Liz
